I am a graduate student at the University of Technology Sydney with a strong passion for web development, and proven skills in teamwork, coding and debugging to satisfy business needs.

## EXPERIENCE

03.2021 – 06.2021

### DEVOPS PROJECT

- Developed a web app to perform different e-commerce tasks for a small Sydney based company which sells IoT devices including sensors, actuators, gateways, etc.
- Used Java, HTML, CSS
- Source code: <https://github.com/hoang31201/loTBay>

06.2021 – 10.2021

### DEVOPS PROJECT

- Developed a web app for a smart trolley, providing supermarket customers with an easier and improved method of shopping.
- Used Java, HTML, CSS, and Azure DevOps.
- Source code: <https://github.com/hoang31201/Smart-Trolley>

04.2022 – 05.2022

### IOS PROJECT

- Developed an IOS expense tracking app which provide a platform for users to manage their spending by tracking their income and expense in various categories, notifying users when the current spending exceeds the set limit.
- Used Swift with XCode.
- Source code: <https://github.com/MistyDuong/iOS-ET>

## EDUCATION

06.2020

### DIPLOMA OF INFORMATION TECHNOLOGY, INSEARCH LIMITED

06.2022

### BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, UNIVERSITY OF TECHNOLOGY SYDNEY

- Majoring in enterprise system development and data analytics
- Excelled in software development

## **SKILLS**

- Team Collaboration
- Object-Oriented Programming
- Programming Languages: Java, Python
- Source control: Git, GitHub
- Eagerness to Learn New Technologies
